SWE 3409 - Mobile Application Development

MOB_A2_2527201 DECLARATION

NDATIMANA Christine | 25/27201 | NCPortfolio | MOB-A2-7201

Student Declaration

I, **NDATIMANA Christine**, registration number **25/27201**, declare that the mobile application **NCPortfolio** submitted for SWE 3409 - Mobile Application Development is my individual assignment work.

I confirm that the application has been personalized with my own identity and that the portfolio content submitted for assessment will represent my genuine skills, education and projects. I understand that fabricated claims, copied personal information or another student's identity must not be presented as my own.

I also confirm that development tools and AI-assisted tools may have been used for guidance, debugging, code review, documentation support and troubleshooting. Their use is disclosed separately in **evidence/AI_USE.md**. I remain responsible for understanding the submitted source code, testing the application and ensuring the final submission is accurate.

At the time this declaration was prepared, functional tests in Expo Go had passed, but the standalone Android APK had not yet been installed because the build was still pending. I will not represent standalone APK installation or APK-specific release testing as completed until those tests are actually performed.

Application name	NCPortfolio
Verification code	MOB-A2-7201
Repository name	MOB_A2_2527201
Required release tag	v1.0.0
Standalone APK status	Pending build / not yet installed at time of this declaration

Student name: NDATIMANA Christine
