MOB_A2_2527201 TEST LOG

NDATIMANA Christine | 25/27201 | NCPortfolio | MOB-A2-7201

Testing status summary

Functional testing in Expo Go has been completed successfully for the tested app flows. The standalone APK has not yet been installed because the EAS build is still pending/queued. Standalone APK installation, launch without Expo Go, and APK-specific Airplane Mode checks are therefore recorded as **NOT TESTED**, not passed.

No.	Test item	Environment	Status	Notes
1	App opens and Home screen loads	Expo Go	PASSED	Home screen opened correctly during development testing.
2	Home begins with "My name is NDATIMANA Christine."	Expo Go	PASSED	Required identity sentence verified.
3	Bottom tabs: Home, Skills, Projects, Edit profile, About	Expo Go	PASSED	All five tabs navigate correctly.
4	Bottom-tab icons render correctly	Expo Go	PASSED	Ionicons font loading fix applied; icons display correctly.
5	Project list and Project Detail navigation	Expo Go	PASSED	Project detail stack opens and Android Back navigation works.
6	Profile editor controlled inputs	Expo Go	PASSED	Required editable fields can be changed.
7	Invalid profile data shows field-level errors and blocks save	Expo Go	PASSED	Validation behavior tested.
8	Valid profile changes save	Expo Go	PASSED	Valid changes saved successfully.
9	Saved profile restores after app restart	Expo Go	PASSED	AsyncStorage persistence tested in development environment.
10	Gallery/profile image selection and preview	Expo Go	PASSED	Selection and preview tested.
11	Replace/remove selected profile image	Expo Go	PASSED	Media actions tested.
12	Permission/cancellation handling	Expo Go	PASSED	Development flow handled without crash.
13	About screen shows app name, student, registration number, code, version and data-use statement	Expo Go	PASSED	Release information verified in app.
14	Core portfolio works without relying on online data	Expo Go development test	PASSED	Core screens tested without network-dependent content.
15	Install standalone APK on physical Android device	Standalone APK	NOT TESTED	APK not available/installed yet; EAS build pending.
16	Launch installed app without Expo Go	Standalone APK	NOT TESTED	Must be tested after APK installation.
17	Restart installed APK and verify persisted profile	Standalone APK	NOT TESTED	Must be repeated on installed release APK.
18	Airplane Mode test on installed APK	Standalone APK	NOT TESTED	Required final physical-device release test still pending.

Release tests still required before submission

After the APK is built and installed, repeat installation, launch, persistence, navigation, media and Airplane Mode tests on the installed APK. Add the physical device model, Android version, test date and final result. Do not change the release items to PASSED until those tests are actually completed.
